

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A composition for dermatological and/or cosmetic use intended for the treatment of acne, seborrheic dermatitis and skin disorders related to the formation of comedos, ~~characterized in that it comprises,~~ the composition comprising, as first active principle, at least one lipophilic antioxidant chosen from the group consisting of gallates, flavonoids, butylated hydroxytoluene (BHT), butylated hydroxyanisole (BHA), octadecenedioic acid and hydroxydecanoic acid and at least one second active principle, a hydrophilic antioxidant chosen from the group consisting of mannitol, vitamin C, lysine azelate, rutin and quercetin.

2. (Currently Amended) The composition as claimed in claim 1, ~~characterized in that~~ wherein the lipophilic antioxidant is dodecyl gallate.

3. (Currently Amended) The composition as claimed in claim 1, ~~characterized in that~~ wherein the antioxidant is propyl gallate.

4. (Currently Amended) The composition as claimed in claim 1, ~~characterized in that~~ wherein the antioxidant is octyl gallate.

5. (Currently Amended) The composition as claimed in claim 1, ~~characterized in that~~ wherein the amount of first active principle is between 0.0001 and 20% by weight of the composition ~~and preferably between 0.0001 and 10% by weight of the composition.~~

6. (Currently Amended) The composition as claimed in claim 1, ~~characterized in that wherein~~ the amount of first active principle is between 0.001 and 2% by weight of the composition.

7. (Currently Amended) The composition as claimed in claim 1, ~~characterized in that it wherein the composition~~ does not comprise excipients capable of oxidizing under the conditions of use.

8. (Currently Amended) ~~The use of a lipophilic antioxidant in the preparation of a dermatological and/or cosmetic composition for the treatment of~~ A method for treating acne and/or of skin disorders due to the formation of comedos, comprising applying to skin or scalp a dermatological and/or cosmetic composition comprising a lipophilic antioxidant.

9. (Currently Amended) ~~The use of a hydrophilic antioxidant in combination with a lipophilic antioxidant in the preparation of a dermatological and/or cosmetic composition for the treatment of~~ A method for treating acne and/or of skin disorders due to the formation of comedos, comprising applying to skin or scalp a dermatological and/or cosmetic composition comprising a hydrophilic antioxidant in combination with a lipophilic antioxidant.

10. (Currently Amended) The ~~use method~~ as claimed in claim 9, ~~characterized in that wherein~~ the lipophilic antioxidant is chosen from the group consisting of gallates and flavonoids.

11. (Currently Amended) The ~~use method~~ as claimed in claim 10, ~~characterized in that wherein~~ the hydrophilic antioxidant is chosen from the group consisting of mannitol and vitamin C.

12. (Currently Amended) A process for rendering the sebum fluid, ~~characterized in that it comprises the application, comprising applying, to the skin or scalp, of a the~~ composition as claimed in claim 1.

13. (New) The composition as claimed in claim 5, wherein the amount of first active principle is between 0.0001 and 10% by weight of the composition.
